THE 4 P'S OF RCM PERFORMANCE

Revenue Cycle Management requires input from Patients, Providers, Payers, and our own Productivity. The speed and accuracy of the information received dictates if we will get paid, how much we will get paid, and how soon.

There are multiple entry and exit points for information throughout each of these input areas including a minimum of 15 revenue-cycle activities.

The resources provided in this reference guide will help support success in these areas and sharing of this information with your staff is highly encouraged.

NATIONAL/FEDERAL RESOURCES

Regular review of federal guidelines helps facilities stay up-to-date on requirements and remain in compliance. These resources have been compiled for you to easily access, bookmark and review.
